

Foundry Practice Library - Issues 226 to 230

Foundry Practice 230

Computer simulation made easier - accurate thermal data for exothermic / insulating feeding systems
PDF (142 KB)

Measurement of emissions associated with the application of a flammable solvent-based core and mold coating
PDF (190 KB)

Production experiences with improved filtration of ductile iron castings
PDF (222 KB)

FEEDERCALC at Omaha Steel
PDF (137 KB)

Foundry Practice 229

Dross inclusions in repetition automotive ductile iron castings
PDF (220 KB)

Aspects of foundry practice and their influence on the machinability of iron castings
PDF (753 KB)

SIVEX FC foam filters - more than just a filter
PDF (290 KB)

Foundry Practice 228

STELEX ZR filters and KALPUR ST direct pour units
PDF (376 KB)

The ECOLOTEC process - German production foundry experience
PDF (206 KB)

RHEOTEC XL coatings - reduced fettling and cleaning costs through superior "as cast" surface finish
PDF (308 KB)

Introduction of the KALTEK cold ladle lining system into a French SG iron foundry
PDF (476 KB)

Energy saving using SIVEX FC filters
PDF (435 KB)

The INSURAL ATL ladle lining system for aluminium
PDF (328 KB)

Foundry Practice 227

KALPUR direct pouring systems invest in your bottom line
PDF (311 KB)

The application of foam filters to optimise aluminium casting production
PDF (181 KB)

KALPUR for steel direct pouring system improves yield, productivity and quality
PDF (101 KB)

The ECOLOTEC process for clean and rapid production of cores and molds
PDF (122 KB)

Granular fluxes for aluminium alloys, environmental and technological advances
PDF (131 KB)

The metal treatment station combining flux injection and rotary degassing
PDF (79 KB)

Foundry Practice 226

Aluminium casting productivity increases with predictive techniques
PDF (117 KB)

FEEDERCALC - the latest versions of the computer program for the design of optimised feeding systems
PDF (247 KB)

A study of the effects of bismuth and rare earths when used in inoculants for the treatment of ductile cast irons
PDF (342 KB)

Filtration of aluminium - a Weibull statistical approach to the analysis of mechanical properties
PDF (160 KB)

Selection, application and control of gravity and low pressure diecoatings
PDF (193 KB)
